**God as Political Philosopher**-Kancha Ilaiah Shepherd 2019-01-25 In this provocative and scholarly book, Kancha Ilaiah Shepherd propounds a view of Gautama Buddha as India's first social revolutionary. Buddha did his best to give the principles of tribal democracy and egalitarianism a sanctuary in his own sangha. In so doing, he foreshadowed modern India's experiment with parliamentary democracy. Critical of the caste system, Buddha inducted low caste members into the sangha and made them his trusted advisers. He gave women an honored place in the sangha. Dissent was indeed permitted, and even Buddha was not above the law. Pre-dating Socrates and Plato by some years, Buddha also foreshadowed key elements of their philosophy.

**Music and Trance**-Gilbert Rouget 1985-12-15 Ritual trance has always been closely associated with music—but why, and how? Gilbert Rouget offers an extended analysis of music and trance, concluding that no universal law can explain the relations between music and trance; they vary greatly and depend on the system of meaning of their cultural context. Rouget rigorously examines a worldwide corpus of data from ethnographic literature, but he also draws on the Bible, his own fieldwork in West Africa, and the writings of Plato, Ghazzali, and Rousseau. To organize this immense store of information, he

develops a typology of trance based on symbolism and external manifestations. He outlines the fundamental distinctions between trance and ecstasy, shamanism and spirit possession, and communal and emotional trance. Music is analyzed in terms of performers, practices, instruments, and associations with dance. Each kind of trance draws strength from music in different ways at different points in a ritual, Rouget concludes. In possession trance, music induces the adept to identify himself with his deity and allows him to express this identification through dance. Forcefully rejecting pseudo-science and reductionism, Rouget demystifies the so-called theory of the neurophysiological effects of drumming on trance. He concludes that music's physiological and emotional effects are inseparable from patterns of collective representations and behavior, and that music and trance are linked in as many ways as there are cultural structures.

**James Dean**-David Dalton 2001-09-01 This is the book that restarted the James Dean cult by celebrating him as the cool, defiant visionary of pop culture who made adolescence seem heroic instead of awkward and who defined the style of

rock 'n' roll's politics of delinquency. **Differential Forms and Applications**-Manfredo P. Do Carmo 2012-12-06 An application of differential forms for the study of some local and global aspects of the differential geometry of surfaces. Differential forms are introduced in a simple way that will make them attractive to "users" of mathematics. A brief and elementary introduction to differentiable manifolds is given so that the main theorem, namely Stokes' theorem, can be presented in its natural setting. The applications consist in developing the method of moving frames expounded by E. Cartan to study the local differential geometry of immersed surfaces in  $R^3$  as well as the intrinsic geometry of surfaces. This is then collated in the last chapter to present Chern's proof of the Gauss-Bonnet theorem for compact surfaces.

**Honeymoon in Hell**-Fredric Brown 2011-10-01 A groundbreaking science fiction novelette from the early days of Galaxy magazine—plus a new foreword by Paul Di Filippo. Appearing in the second issue of Galaxy dated November 1950, Honeymoon in Hell showcased the magazine's distinctive identity as opposed to other publications of its time—darker, more socially aware, sometimes sexually frank in ways that were shocking for the era. Dealing with copulation and its desired consequences, Honeymoon in Hell avoided euphemisms—and used a satirical attack that parodied magazine taboos. The covers of pulp magazines depicted monsters putting near-naked females in peril, but the narratives under the cover offered no equivalent. Brown's hastily married couple, sent to the moon to see if they can breed a male child—all births on Earth over recent months having been female—encounter problems emotional as well as practical. This book includes both the landmark novelette and a new foreword by Paul Di Filippo. About the series: Debuting in 1950, Galaxy was science fiction's most admired, widely circulated, and influential magazine, known for publication of full-length novels, novellas, and novelettes by giants in the field. The Galaxy Project is a selection of the best of Galaxy, with new forewords by some of today's top writers. Initial selections include work by Ray Bradbury, Fredric Brown, Lester del Rey, Robert A. Heinlein, Damon Knight, C. M. Kornbluth, Walter M. Miller, Jr., Frederik Pohl, Robert Sheckley, Robert Silverberg, William Tenn (Philip Klass), and Kurt Vonnegut. Foreword contributors include Paul Di Filippo, David Drake, John Lutz, Barry N. Malzberg, and Robert Silverberg. Lead singer Roky Erickson was put away in a maximum security unit for the criminally insane for years. Tommy Hall, their Svengali lyricist, lived in a cave. Guitarist Stacy Sutherland was imprisoned. The drummer was involuntarily subjected to electric shock treatments. This fascinating biography breaks decades of silence of band members and features dozens of never-before-printed photos.
