The Hotel on Place

Vendome-Tilar J. Mazzeo
2014-03-11 Set against the backdrop of the Nazi occupation of World War II, *The Hôtel on Place Vendôme* is the captivating history of Paris's world-famous Hôtel Ritz—a breathtaking tale of glamour, opulence, and celebrity; dangerous liaisons,

espionage, and resistance—from Tilar J. Mazzeo, the New York Times bestselling author of *The Widow Clicquot* and *The Secret of Chanel No. 5* When France fell to the Germans in June 1940, the legendary Hôtel Ritz on the Place Vendôme—an icon of Paris frequented by film stars and celebrity writers, American heiresses and risqué flappers, playboys, and princes—was the only luxury hotel of its

kind allowed in the occupied city by order of Adolf Hitler. Tilar J. Mazzeo traces the history of this cultural landmark from its opening in fin de siècle Paris. At its center, The Hotel on Place Vendôme is an extraordinary chronicle of life at the Ritz during wartime, when the Hôtel was simultaneously headquarters to the highest-ranking German officers, such as Reichsmarshal Hermann Göring, and home to exclusive patrons, including Coco Chanel. Mazzeo takes us into the grand palace's suites, bars, dining rooms, and wine cellars, revealing a hotbed of illicit affairs and deadly intrigue, as well as stunning acts of defiance and treachery. Rich in detail, illustrated with black-and-white photos, The Hotel on Place Vendôme is a remarkable look at this extraordinary crucible where the future of post-war France—and all of post-war Europe—was transformed.

Creating the Illusion (Turner Classic Movies)-Jay Jorgensen 2015-10-06 Marilyn Monroe made history by

standing over a subway grating in a white pleated halter dress designed by William Travilla. Hubert de Givenchy immortalized the Little Black Dress with a single opening scene in Breakfast at Tiffany's. A red nylon jacket signaled to audiences that James Dean was a Rebel Without a Cause. For more than a century, costume designers have left indelible impressions on moviegoers' minds. Yet until now, so little has been known about the designers themselves and their work to complement and enrich stories through fashion. Creating the Illusion presents the history of fashion on film, showcasing not only classic moments from film favorites, but a host of untold stories about the creative talent working behind the scenes to dress the stars from the silent era to the present day. Among the book's sixty-five designer profiles are Clare West, Howard Greer, Adrian, Walter Plunkett, Travis Banton, Irene, Edith Head, Cecil Beaton, Bob Mackie, and Colleen Atwood. The designers' stories are set against the backdrop of

Hollywood: how they collaborated with great movie stars and filmmakers; how they maneuvered within the studio system; and how they came to design clothing that remains iconic decades after its first appearance. The array of films discussed and showcased through photos spans more than one hundred years, from draping Rudolph Valentino in exotic “sheik” dress to the legendary costuming of *Gone with the Wind*, Alfred Hitchcock thrillers, *Bonnie and Clyde*, *Reservoir Dogs*, and beyond. This gloriously illustrated volume includes candid photos of the designers at work, portraits and wardrobe tests of stars in costume, and designer sketches. Drawing from archival material and dozens of new interviews with award-winning designers, authors Jay Jorgensen and Donald L. Scoggins offer a highly informative, lavish, and entertaining history of Hollywood costume design.

The Rotters' Club-Jonathan Coe 2007-12-18 Birmingham, England, c. 1973: industrial strikes, bad pop music,

corrosive class warfare, adolescent angst, IRA bombings. Four friends: a class clown who stoops very low for a laugh; a confused artist enthralled by guitar rock; an earnest radical with socialist leanings; and a quiet dreamer obsessed with poetry, God, and the prettiest girl in school. As the world appears to self-destruct around them, they hold together to navigate the choppy waters of a decidedly ambiguous decade.

The Collector's Apprentice-B. A. Shapiro 2019-06-11 The bestselling author of *The Art Forger* and *The Muralist* delivers a page-turning historical thriller of art and revenge, of history and love, that will transport readers to 1920s Paris and America. It's the summer of 1922, and nineteen-year-old Paulien Mertens finds herself in Paris—broke, disowned, and completely alone. Everyone in Belgium, including her own family, believes she stole millions in a sophisticated con game perpetrated by her then-fiancé, George Everard. To protect herself from the

law and the wrath of those who lost everything, she creates a new identity, a Frenchwoman named Vivienne Gregsby, and sets out to recover her father's art collection, prove her innocence—and exact revenge on George. When the eccentric and wealthy American art collector Edwin Bradley offers Vivienne the perfect job, she is soon caught up in the Parisian world of post-Impressionists and expatriates—including Gertrude Stein and Henri Matisse, with whom Vivienne becomes romantically entwined. As she travels between Paris and Philadelphia, where Bradley is building an art museum, her life becomes even more complicated: George returns with unclear motives . . . and then Vivienne is arrested for Bradley's murder. B. A. Shapiro has made the historical art thriller her own. In *The Collector's Apprentice*, she gives us an unforgettable tale about the lengths to which people will go for their obsession, whether it be art, money, love, or vengeance.

The Moment of Truth-Vladimir Bogomolov 1982

The Happiness Effect-Donna Freitas 2017-02-01 Sexting. Cyberbullying. Narcissism. Social media has become the dominant force in young people's lives, and each day seems to bring another shocking tale of private pictures getting into the wrong hands, or a lament that young people feel compelled to share their each and every thought with the entire world. Have smartphones and social media created a generation of self-obsessed egomaniacs? Absolutely not, Donna Freitas argues in this provocative book. And, she says, these

alarmist fears are drawing attention away from the real issues that young adults are facing. Drawing on a large-scale survey and interviews with students on thirteen college campuses, Freitas finds that what young people are overwhelmingly concerned with--what they really want to talk about--is happiness. They face enormous pressure to look perfect online--not just happy, but blissful, ecstatic, and fabulously successful. Unable to achieve this impossible standard, they are anxious about letting the less-than-perfect parts of themselves become public. Far from wanting to share everything, they are brutally selective when it comes to curating their personal profiles, and worry obsessively that they might unwittingly post something that could come back to haunt them later in life. Through candid conversations with young people from diverse backgrounds, Freitas reveals how even the most well-adjusted individuals can be stricken by self-doubt when they compare their experiences with the vast

collective utopia that they see online. And sometimes, as on anonymous platforms like Yik Yak, what they see instead is a depressing cesspool of racism and misogyny. Yet young people are also extremely attached to their smartphones and apps, which sometimes bring them great pleasure. It is very much a love-hate relationship. While much of the public's attention has been focused on headline-grabbing stories, the everyday struggles and joys of young people have remained under the radar. Freitas brings their feelings to the fore, in the words of young people themselves. The Happiness Effect is an eye-opening window into their first-hand experiences of social media and its impact on them.

Digital Interactive TV and Metadata-Arthur Lugmayr
2004-06-22 The book shows how digital-interactive television (digiTV) will affect the relation between the broadcaster and the consumer. Standardization processes, technological paradigms, and application development issues will be

discussed. The emerging applications, innovations, and future concepts are described in detail. The triangle: content - end-user - technology will be conceptualized to create a vision and to overview provision of services that will be major innovative elements in the world of digital television. From the technical side, eXtensible Markup Language (XML)-based metadata standards are a major element in realizing new innovative concepts in the world of digital, interactive television. This book clearly shows by the introduction of applications and use-scenarios, which conceptual requirements and metadata models are applicable, which metadata subsets are applicable due to resource limitations, which metadata aspects are needed for nonlinear content viewing, etc. The book gives a broad and detailed both visionary and technical overview useful for graduates, engineers, and scientists; and last but not least decision-makers in the broadcasting industry.

God as Political

Philosopher-Kancha Ilaiah Shepherd 2019-01-25 In this provocative and scholarly book, Kancha Ilaiah Shepherd propounds a view of Gautama Buddha as India's first social revolutionary. Buddha did his best to give the principles of tribal democracy and egalitarianism a sanctuary in his own sangha. In so doing, he foreshadowed modern India's experiment with parliamentary democracy. Critical of the caste system, Buddha inducted low caste members into the sangha and made them his trusted advisers. He gave women an honoured place in the sangha. Dissent was indeed permitted, and even Buddha was not above the law. Pre-dating Socrates and Plato by some years, Buddha also foreshadowed key elements of their philosophy.

Mr. Gwyn-Alessandro Baricco
2014-07-08 After celebrated author Jasper Gwyn suddenly and publicly announces that he will never write another book, he embarks on a strange new career path as a “copyist,” holding thirty-day sittings in a meticulously appointed room and producing, at the end, brief but profoundly rich portraits in prose. The surprising, beautiful, and even frightening results are received with rapture by their subjects—among them Gwyn’s devoted assistant, Rebecca; a beautiful fabric importer; a landscape painter; Gwyn’s own literary agent; two wealthy newlyweds; a tailor to the Queen; and a very dangerous nineteen-year-old. Then Gwyn disappears, leaving behind only a short

note to his assistant—and the portraits. As Rebecca studies his words, she realizes that the mystery is larger than the simple fact of Gwyn’s whereabouts, and she begins to unravel a lifetime’s worth of clues left by a man who saw so much but said so little, a man whose solitude masked a heart as hungry as hers.

Greek Gold-Herbert Hoffmann 1965

Dew in the Morning-

Chinodya, Shimmer 2019-02-10 Dew in the Morning was written when the author, Shimmer Chinodya, was eighteen. The

intensity of childhood memory is sharp and immediate. Godi, the young boy whose life we experience as he grows up, perceives more than he understands. The ambivalence or instability of the text lies at the juncture between the felt experience of the child, and the rational, interpretative, analysis of the adult. A Bildungsroman, Chinodya captures the centrality of land in the national consciousness: its beauty, its rhythms, its seasons and its fertility. But he does not romanticise the hardships: the droughts, poor harvests, over-crowding – particularly as a result of the inflow of resettled people – and the tensions over land and between peoples as they struggle to survive. Good humour, strict morality, hard work, and mutual support can be undermined by corrupt practice, or tainted by traditional ceremonies that are as frightening as they are powerful, and raise essential questions of belief and validity. Dew in the Morning, is a tender, evocative novel of growing up, but in it we see the seeds of many issues which Chinodya will dwell on in his later novels: familial

tensions, the taut interplay of tradition and modernity, ancestral beliefs and Christianity.

Differential Forms and

Applications-Manfredo P. Do

Carmo 2012-12-06 An application of differential forms for the study of some local and global aspects of the differential geometry of surfaces. Differential forms are introduced in a simple way that will make them attractive to "users" of mathematics. A brief and elementary introduction to differentiable manifolds is given so that the main theorem, namely Stokes' theorem, can be presented in its natural setting. The applications consist in developing the method of moving frames expounded by E. Cartan to study the local differential geometry of immersed surfaces in R^3 as well as the intrinsic geometry of surfaces. This is then collated in the last chapter to present Chern's proof of the Gauss-Bonnet theorem for compact surfaces.

Richard Yeomans interweaves historical fact with precisely detailed descriptions to trace the genesis and flowering of Islamic architecture in the various Muslim regions of the world including Spain, the Maghreb, Egypt, Syria, Turkey, Persia, and Central Asia, ending at the farthest point East in India. The volume includes a brief introduction to Islam and to the theological attitudes which determine the form and function of its art and architecture. *The Story of Islamic Architecture* is fully illustrated with over 200 striking color photographs, and includes a comprehensive glossary of architectural terms. Yeomans' flowing, clear, and engaging narrative captures not only the shapes and colors of this architecture, but even the sounds of activities that take place in the space defined by it.

The Bandini Quartet-John Fante 2014-08-14 Possessing a style of deceptive simplicity, emotional immediacy and tremendous psychological point, among the novels, short stories and screenplays that complete his career, Fante's crowning accomplishment is the Arturo Bandini tetralogy. This quartet of novels tell of Fante's fictional alter-ego Bandini, an impoverished young Italian-American escaping his suffocating home in Colorado for Depression-era Los Angeles. In the beginning, it is the triple weights of poverty, father and Church that Bandini struggles under but though the physical escape is complete, the psychological imprint continues as he comes to terms with love, desire and the knowledge his talent may not be recognised.
