Lieutenant Donal Connor has been given the most bizarre of

new cases. Four famous stage performers have died in recent months, three of them in state capitals within Transifica, the fourth in far Surinam. And now the idolised diva Maria deLivnova is coming to Tristopolis. Donal's boss is determined that nothing like this is ever to happen in his city. Connor is to have anything he needs, as long as the diva lives. And so begins a dark investigation through a world where corpses give up their psychic energy in the massive necroflux generators which power the city, where gargoyles talk, where wraiths work in slavery, a world of the dead where corruption is alive. This is an extraordinary SF novel set in an alternate universe quite unlike any imagined in SF before; a universe where magic and the supernatural and the undead are given a scientific rationale and a horrifyingly plausible rationale. The novel's setting, Tristopolis, is the ultimate noir city; an immense baroque creation of haunted stone skyscrapers, black metal and city-wide catacombs. Its hero Donal Connor is immensely likeable and easy to identify with. Even once he's dead.

Gestión financiera-Marcial Córdoba Padilla En el escenario actual, los requerimientos de diversos conocimientos en materia financiera por parte del sector empresarial son cada vez mayores, debido a los cambios acontecidos en el contexto mundial que han instaurado nuevas reglas en el orden económico y en los mercados financieros. Es así como la toma de decisiones financieras en la empresa moderna cumple un rol primordial, en virtud de su posterior impacto financiero. Las empresas, que se desempeñan en un contexto de alta volatilidad de los mercados y de riesgos crecientes, deben dominar los instrumentos disponibles en el sistema financiero para la correcta estructuración de estrategias tendientes a la maximización de los beneficios y a la minimización de los diferentes riesgos. La importancia que representan las operaciones de gestión financiera internacional es la principal causa por la cual los gerentes financieros ahora deben ocuparse de asumir sus respectivas responsabilidades, obligando a las instituciones

empresariales a un grado de flexibilidad para poder sobrevivir como un medio expuesto a los cambios permanentes. En la medida en que los fondos sean asignados en una forma equivocada, el crecimiento de la economía se volverá muy lento y en el caso de que se esté atravesando por una época de escasez económica esto será causante del deterioro de toda la empresa en general. CONTENIDO: Generalidades de la gestión financiera. Valoración financiera. Herramientas financieras. Estructura financiera y apalancamiento. Gestión del capital de trabajo. Inversiones a largo plazo. Financiamiento a largo plazo, costo de capital y dividendos. Sistema financiero.

Confucius on Leadership-John Adair
2013-03-14 Few things are more important than the quality and credibility of leaders, as they play a vital role in every aspect of our modern lives. Yet strong leadership is a difficult skill to master. Good leaders must learn not only to manage, analyse and appraise, but also to encourage, improve and inspire. Here, John Adair, the celebrated expert on leadership training, shows how Confucian philosophy can help you become a better leader. He demonstrates how, far from merely being interesting ideas from centuries ago, Confucius's sayings, or Analects, will help you to develop the confidence, characteristics and skills you need to be the best leader you can be.

Sacred Singleness-Leslie Ludy 2009-08-01

Leslie Ludy, popular writer and speaker, has a powerful message for today's single adults. Through personal experience and in interaction with thousands of young women over the past fourteen years, she has found that most Christian young women fall into one of two categories: those who are discontent and unfulfilled, constantly searching for the "right one," and those who are consumed by a passionate romance with Jesus Christ and are living joyful, satisfied lives. Her desire is to help readers move toward the totally surrendered and fulfilling experience rather than one of striving and disappointment. Leslie shares firsthand stories and testimonials of modern-day single women who may sometimes struggle with loneliness and personal desires but who, in following God's plan for them, have discovered a deeper delight, purpose and true joy in their lives. Sacred Singleness gives every single woman the inspiration to live counter to the culture and find amazing opportunity in this sacred season.

ESTUDIO DE FACTIBILIDAD DE UN PRODUCTO INNOVADOR DE CAFÉ.-Dra.

María Esther Barradas Alarcón 2014-05-01 En un mundo globalizado, en el que las personas tratan de hacer eficiente el uso de su tiempo, hay necesidades y deseos de encontrar bienes y servicios que sean útiles en la satisfacción de los consumidores; es por ello, que cada vez es más común tener al alcance la posibilidad de adquirir productos para facilitar la vida cotidiana. Actualmente, las empresas compiten a través de la producción de bienes prácticos e innovadores que faciliten la vida del consumidor. Dentro de esta gran variedad de bienes se encuentra el café que es uno de los principales generadores de divisas en el mercado mexicano. Al interior de la industria del café se encuentran diferentes productos, el más importante es la bebida del mismo. En la investigación realizada se aplicaron cuestionarios para conocer los gustos y la forma de preparar el café, los cuales arrojaron que las personas encuentran desventajas en la preparación de una taza de café. Los resultados dieron como conclusión que los consumidores

desearían que el tiempo en la elaboración de una taza de café fuese más rápido. Esto influye en el tamaño de partícula del café (el grado de molienda) y una solubilidad inadecuada del producto en agua. Por lo tanto, el presente libro tiene como finalidad mostrar el diseño de un producto, que facilita la preparación de una taza de café y que consiste en una tableta de café soluble en diferentes presentaciones con café puro, que puede contener azúcar y/o crema y ésta se vierte en una taza con agua caliente, removiéndola algunos segundos para después disfrutar de ella. Se trata un producto innovador porque es una nueva presentación de café soluble y permite reducir el tiempo en la preparación de la bebida de café soluble y asimismo, impulsa la economía mexicana en la industria cafetalera, que en esta región es un producto agrícola importante, dado que es un producto de consumo local y de exportación. La presente obra está constituida por cinco capítulos, los cuales son: En el capítulo 1 se presenta la misión, visión y valores del nuevo negocio, así también los objetivos que se

persiguen con apoyo de un análisis PESTL y FODA para definir las estrategias a implementar. En el capítulo 2 se realiza el estudio de mercado con el cual se determina la estimación de la demanda y que el producto sea adquirido por los consumidores. En el capítulo 3, se plantea el estudio técnico el cual muestra la viabilidad técnica del producto, es decir, se cuenta con la tecnología adecuada para ello. El capítulo 4, muestra la estructura orgánica, la descripción de funciones y presupuesto de mano de obra. El capítulo 5, presenta las principales inversiones, las técnicas financieras necesarias para determinar la rentabilidad del negocio. Se incluye bibliografía, glosario y anexo.

Ebla and Its Landscape-Paolo Matthiae
2016-06-16 The discovery of 17,000 tablets at the mid-third millennium BC site of Ebla in Syria has revolutionized the study of the ancient Near East. This is the first major English-language volume describing the multidisciplinary archaeological research at Ebla. Using an innovative regional landscape approach, the 29 contributions to this expansive volume examine Ebla in its regional context through lenses of archaeological, textual, archaeobiological, archaeometric, geomorphological, and remote sensing analysis. In doing so, they are able to provide us with a detailed picture of the constituent elements and trajectories of early state development at Ebla, essential to those studying the ancient Near East and to other archaeologists, historians, anthropologists, and linguists. This work was made possible by an IDEAS grant from the

European Research Council.

The Courage Consort-Michel Faber 2005-11-07
Three novellas filled with “gallows humor and a sense of real peril,” by the acclaimed author of *The Book of Strange New Things* (The New York Times). The bestselling author of *The Crimson Petal* and *the White* “draws his characters with

assured comic efficiency” (The Guardian), using “evocative language” to offer up “intriguing glimpses of unfamiliar worlds” (Los Angeles Times), in these acclaimed novellas. In “The Courage Consort,” an a cappella vocal ensemble is sequestered in a Belgian château to rehearse a monstrously complicated new piece, but competing artistic temperaments and sexual needs create as much discordance as the avant-garde music. In “The Hundred and Ninety-Nine Steps,” a lonely woman joins an archaeological dig at Whitby Abbey and unearths a mystery involving a long-hidden murder. And in “The Fahrenheit Twins,” strange children, identical in all but gender, are left alone at the icy zenith of the world by their anthropologist parents to create their own ritual civilization. From a wildly inventive author whose novel *The Book of Strange New Things* was named one of 2014’s best reads by everyone from the *New Yorker* to *io9*, *The Courage Consort* is an eclectic collection of well-told tales, in which Michel Faber “marches on, establishing himself as one of the most versatile fiction writers working today”

(Kirkus Reviews). "Readers will again be immersed in the intense worlds he creates."

Principles of Finance-Besley 1999-01-01 The first course in finance for finance and business majors has traditionally focused solely on managerial (or corporate) finance. Now, many schools are indicating a need to introduce these students -- particularly the non-finance business majors -- to the other two major components of finance -- institutions and investments -- in this first course but at the same level of rigot as traditional financial management texts. The Dryden Press has answered this call with Principles of Finance. This text begins with a discussion of the principles of financial systems and business organizations, moves on to valuation concepts, and then corporate decision making (managerial finance). It concludes with coverage of investment fundamentals. Key chapters may be covered in a one-term course or supplemented with cases and outside readings for a two-term course. Chapters are written in a flexible, modular format, allowing instructors to cover the material in a different sequence if desired.
